

Howe Ranch Livestock Acquisition Opportunities

At Howe Ranch, we only place animals that have been personally raised, extensively trained, and thoughtfully integrated into our boutique farm and therapeutic programs. Each animal represents *daily* handling, routine-based training, and real-world exposure — including hands-on interaction with people in different environments — making them uniquely suited for public-facing, therapeutic, and agritourism environments. We do not raise animals for consumption. The following animals are available around our transition to Montana in 2026.

DONKEYS

Annie & Elsie **AVAILABLE**

Bonded pair of pure white donkeys, ages 8 (Annie) and 18 (Elsie, mother), with extensive experience in public-facing farm settings. Both are calm, friendly, and accustomed to daily petting, brushing, photo sessions, and interaction with children and adults.

They work comfortably in active farm environments and have proven livestock-protection awareness while remaining exceptionally gentle with guests. Their striking white color photographs beautifully and has made them a favorite for events and agritourism settings.

Well handled, routine-oriented, and reliable. Placement together required. Serious inquiries only.

The two white donkeys are **available for \$4,500 as a pair only**.

CATTLE

We have one exceptional **micro/mini steers** and **one heifer** available — both from distinguished programs.

Merlin **AVAILABLE**

Merlin's Sire --Webb's Cattle Co's bull **Pickle**:

Merlin (DOB 7/15/2025) (in our program called "Marvin") is a gorgeous, tiny, super hairy chondro positive micro/mini Highland calf who comes from **Wildhaven Cattle Co's elite embryo transfer program**, sired by the famous bull **Pickle**, by **Webb Cattle Co**. He is **halter trained**, weaned as of March 2026, and participating in our **portrait and cow cuddling program**.

Exceptional temperament, he has interacted with hundreds of children, loves getting brushed, treats, walks on the halter, and poses for professional photos. Official name "Merlin." He is steered and available for ~~\$12,500~~ **\$12,500. Montana Relocation Special**

Rosie Rue **SOLD**

For those interested in breeding **miniature Highland cattle**, we have this stunning heifer calf available from **Red Tail Ranch SD's Sampson** (sire) and **Heidi** (dam) pairing. She is a **red miniature 100% Highland** heifer, named **Rosie Rue**, DOB 5/3/2025. Rosie Rue is stunning with the classic Highland look and long, thick coat coupled with fantastic conformation, and has her parents' gentle demeanor and calm, trusting temperament. She is the full package and works in the petting zoo **cow cuddling**, brushing, and photo programs. **Her price is \$12,000.**

Petunia AVAILABLE

Dam: Red Tail Ranch's Heidi

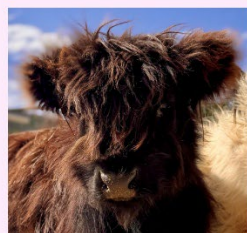

Sire: Red Tail Ranch's Sampson

Petunia

Montana Relocation
Special \$10,000

For those seeking an **exceptional, super hairy miniature Highland heifer**, we are offering Petunia — a truly special girl from the same pairing as Rosie Rue, out of Red Tail Ranch SD's Sampson (sire) and Heidi (dam). This exceptionally social and emotionally intelligent Highland cow represents the very best of the breed, combining outstanding genetics with hundreds of hours of intentional handling, training, and positive human interaction. The result is a calm, affectionate, and highly people-oriented animal that showcases the remarkable temperament and connection Highland cattle are capable of developing. Petunia is a 100% Highland heifer, DOB April 11, 2024, and represents the full package — beautiful Highland type, excellent conformation, and an incredibly soft, classic coat. Dehorned.

What sets Petunia apart is her temperament. She is remarkably docile and confident and has been working in our cow cuddling and weekly photo programs since she was an itty bitty calf. She is calm, trusting, and naturally engaged with people — a rare quality that makes her ideal for both breeding and interaction-based programs. She loves getting brushed, going on walks on her halter, cookies, posing for professional photos, and cuddling with her guests. Now of **breeding age**, Petunia offers both top-tier genetics and a proven, people-safe disposition.

She is priced at ~~\$12,500~~ **Montana Relocation Special \$10,000**

Maximus **SOLD**

Participates in treats and candid photo activities. Both steers have UC Davis records documenting Chondro positive (dwarf gene) status, and health & vaccination records.

ALPACAS

Wendy & Lilibeth **SOLD**

Petting Zoo–Trained Suri Alpaca Pair: We are offering a bonded pair of Suri alpacas with extensive experience in public-facing, hands-on farm environments. These alpacas have been an active part of our petting zoo and boutique farm experiences, with regular exposure to guests of all ages.

They are:

- Calm, gentle, and well acclimated to people
- Comfortable with close interaction and photography
- Accustomed to structured routines and daily moving in busy settings with frequent visitors

Their Suri fiber is striking, silky, and visually distinctive, making them especially appealing for guest interaction, events, and educational settings. They photograph beautifully and have proven to be excellent ambassadors for alpaca encounters. These alpacas are not pasture-only animals. Their value reflects consistent training, real-world exposure, and demonstrated ability to safely and calmly engage with the public in petting zoo and agritourism environments.

Offered as a bonded pair for \$4,500.

GOATS

Charlie, Rodeo & Milo

Trained Petting Zoo Goat Herd — \$500 (available as a full herd only)

We are offering a small, well-established herd of trained petting zoo goats consisting of three **Nigerian Dwarf** wethers. This group has extensive experience in public-facing farm environments and has been an active part of our boutique petting zoo and agritourism programs.

These goats are:

- Exceptionally friendly and people-oriented
- Comfortable with hands-on interaction, brushing, and close proximity to guests
- Calm and reliable around children and adults
- Accustomed to daily handling, routine-based care, and busy farm settings

They are well socialized, respectful of boundaries, and thrive in structured environments with consistent interaction. Their size, temperament, and proven exposure make them especially well suited for petting zoos, educational farms, therapy-adjacent programs, and family farms seeking interactive animals.

This herd is offered together only to preserve established social dynamics and ensure continued success in a new setting.

ADDITIONAL INFORMATION

Prices are firm and reflect the our investment in the animals' breeding & raising costs, extensive training, handling, and experience; hundreds of photos are available at <http://TheHoweRanch.com>, [The Howe Ranch Facebook](#), and Instagram (Howe_Ranch).
