

## Welcome to Our Private Farm

We are a small, family-operated farm dedicated to animal care, wellness, education, and peaceful farm experiences.

- Visits are private and by invitation only, focused on connecting with our animals and enjoying nature.
- Contributions such as passes, purchase of fruit and eggs at our pop up farm stand, and hay, help support the care of our animals and farm operations.
- We are not a public event venue and do not host large gatherings, parties, or or similar.
- Small, private ceremonies or gatherings may occasionally occur with prior arrangement.
- Thank you for respecting our farm, our animals, and our community space!

This farm operates under rural residential agritourism guidelines and reserves the right to limit access to private guests from our mini cow lovers community only.
