

WEATHER POLICY

PROGRAMMING POLICY

All Howe Ranch experiences are conducted rain or shine. Our premium experience areas provide shelter from rain and sun, and we also have an indoor respite space so guests remain comfortable during rain or heat.

To ensure fairness and operational integrity, all guests are subject to the same weather policy without exception.

We are unable to accommodate individual exception requests, as consistent application of our policies protects both our farm operations and all reserved guests.

BOOKING COMMITMENT

Upon confirmation, each reservation:

- Blocks the experience from other bookings
- Secures scheduled staff who travel in for your visit
- Allocates farm resources and animal preparation in advance

Because these preparations and staffed services create real operational costs for our small working farm, bookings are NON-REFUNDABLE and NON-RESCHEDULABLE.

Guests may transfer their experience to someone in their network with notice.

Rescheduling will only be offered in cases of extreme, unsafe conditions directly impacting the farm property, including wildfire or active evacuation, earthquake damage affecting structures, flooding or inaccessibility impacting the farm.

Weather conditions affecting guests' cities of origin or travel routes do not alter programming at Howe Ranch.

GUEST COMFORT

Covered experience areas and an indoor respite space are available during inclement/hot weather. Guests are encouraged to wear closed-toe shoes or boots and appropriate outerwear, as conditions may be muddy during rainy weather.

Thank you for supporting our animals and our small family-operated farm.
